Another Great Strike in Chicago Slaughter Houses.

MRS. STEWART'S WILL PUBLISHED

A Customs Officer Shot by a Discharged Inspector—Powderly Speaks in New York for George—Eastern Notes

CHICAGO Nov 1—Nearly 3000 men in the slaughter houses of Swift and Morris quit work this morning The trouble is over the resumption of the ten hour system the men refusing to work the additional two hours without additional pay Each of the two houses employs about 3000 men None of the other packing houses are affected An attempt was made to induce the men in Armour's and the other large houses to stop, but they refused to go out

Further particulars from the stock yards strike are to the effect that Swift's beef killers sent a committee to him Saturday and insisted on having an increase of 50 cents a day should the firm return to the 10 hour system This morning when the beef butchers went to work they noticed that Foreman Wilder of Swift's had discharged James Matthewson one of the committeemen They also found that the wages of the laborers had not been increased so they struck They insist now on having Matthewson reinstated and also to return to the eight hour system

On hearing that Swift's men were out beef butchers employed by Morris went out A crowd went down to Smith's machine shop and compelled the men there to strike. After this they went to Armour's for the purpose of calling his men out but this move was anticipated by the foreman who got a force of police to guard the principal entrances and the crowd was kept away

The strikers arranged to hold a meeting during the day A member of the executive committee told a reporter that unless the two firms gave in all employes in the yards would be called out

MEETING OF STRIKERS

Between 200 and 300 men in Libby McNeill & Libby's canning establishment also went out The reason alleged was that the Morris establishment partly supplies the canning firm with beef

A meeting of strikers was had late this afternoon No one except Knights of Labor were admitted Fully 1000 non union strikers congregated on the outside anxiously awaiting the action of the Knights Several speeches were made and wild applause greeted every reference to the eight-hour day A motion to make no compromise on anything short of eight hours was carried by a unanimous vote A committee was appointed to take charge of the strike and was given full power to act

A Knight of Labor explained to night that the men had been offered reinstatement of discharged men but would now hold out for a return to the eight hour system by all the beef houses He said the proprietors would be given till Saturday to decide what they would do and if they persisted in running ten hours a general strike would probably be ordered which would include Swift's Morris's and also Armour's slaughter houses

SURVEYOR BEATTIE SHOT.

A Discharged Inspector Fires a Number of Shots, Two Taking Effect.

NEW YORK Nov 1—The surveyor of the port of New York Mr Beattie was shot about noon to day in his office at the custom house, by a discharged inspector, who fired five or six shots Particulars cannot be obtained and it is not known whether the wounds are fatal

Surveyor Beattie was wounded in two places One of the bullets it is said, entered the hip He now lies in the custom house Attendants state that his condition is not considered serious The inspector who fired the shot was named Bieral and was discharged last week

THE WOULD-BE MURDERER.

The surveyor's would be assassin Lewis Bieral, is a man who gained some distinction in the war of the rebellion He was for about twelve years attached to the custom house About a week ago the surveyor dismissed him from the service on learning that he was in the habit of exacting money from immigrants at Castle Garden where he was lately stationed The chief charge on which he was removed was compelling an immigrant to pay $ on a sewing machine

He came to the office about 12 to day and gained entrance to the surveyor's private office in the back of the building fronting on South William street. At 1 20 P M the report of a pistol shot was heard by Private Secretary Lewis Nichols and Examiner Thomas Hicks The discharged inspector rushed in Instantly out of the private office, pistol in hand, and ran through the corridor to the exit into Hanover street A man attempted to stop him, and he yelled If you touch me I'll kill you The man dropped back and Bieral ran along to Beaver street into which he turned and ran to the cotton exchange a number of citizens following in pursuit Finding escape impossible the man turned and ran into the arms of a policeman He was trembling with fear and seemed to anticipate that his pursuers would harm him He said to the policeman For God's sake, arrest me!

He was taken to the Old slip station house and locked up He described himself as being 72 years old married and living at 850 Sixth avenue. He said he was a native of Brazil

News of the shooting greatly exaggerated spread rapidly A large squad of police had all they could do to keep the corridors clear A large crowd of anxious inquirers surged around the doors A number of physicians appeared to render aid to the wounded man

BEATTIE'S STATEMENT

Coroner Levy took the statement of Surveyor Beattie this afternoon He said the prisoner was removed from his post of inspector on his recommendation as he had illegally taken money from an immigrant girl The surveyor was sitting at his desk when the door was thrown open and the prisoner entered with a pistol in his hand exclaiming Now by God I'll teach you!" He fired three shots two of which took effect—one through the fleshy part of the surveyor's left hand and the other struck the crest of the ilium glancing in an inward and upward direction This ball has not yet been extracted

The prisoner when captured was perfectly calm He admitted the shooting, and added that he did it because Beattie refused to listen to men who went to him to appeal for his reinstatement The prisoner was taken before the injured official who unhesitatingly identified him

Bieral said Yes I am the man that did it He took bread and butter out of my family's mouth

The prisoner was subsequently taken to the Tombs police court where he confessed to Justice Murphy to having fired the shots and said he did it because he had discharged him without cause

AN EVENTFUL CAREER

He was born in Valparaiso in 1814 and came to this country at 14 years of age When 25 years of age he enlisted in the frigate Columbia for a three years cruise around the world during which he assisted in burning three Chinese towns for firing on American ships He next speculated in horses at which he accumulated considerable money and in 1851 went to California, where he added to his wealth He met John Morrissey Bret Harte and others there He was a friend of Bill Poole who was shot. He served in the First California regiment in the war of the rebellion and at the battle of Ball's Bluff rescued Col Baker's body and killed his slayer For this he was given a medal and a pension of $30 a month. He had been in the custom house fifteen years, receiving his first appointment through Gens Hancock and Sickles. He denies the charge of taking $2 from an immigrant girl for which he was discharged, and says that after shooting the surveyor he turned the pistol on himself but was so nervous that the ball went through his hat

He was held to answer for the shooting The wounded man returned to consciousness, and as soon as it was considered safe was put into an ambulance and taken to his home

The ball was probed for to-night but was not found The fact causes no concern to the doctors, as no internal organs are believed to be hurt At a late hour he was put under an opiate.

Decision in the Pacific Bank Cases—Motions to Advance Telephone Cases

WASHINGTON Nov 1—A decision was rendered in the supreme court of the United States to-day in a series of cases known as the Pacific National bank cases brought here by appeal from the United States circuit court for the district of Massachusetts They were suits instituted by the receiver of the insolvent Pacific National bank of Boston against the stockholders of that bank to enforce personal liability for an assessment of 100 per cent upon shares of both the original and increased capital stock of the bank standing upon its books in their names The stockholders maintained when the cases were tried in the court below that they were not liable on the shares of increased capital stock held by them for the reason that the increase of capital of $500,000 to $961,000 was unauthorized and illegal and they were not parties to it The court holds that the stockholders are liable upon their shares of increased capital stock that defects at law and the alleged ground of relief in equity are alike insufficient, and that the judgments and decrees of the circuit court in favor of the receiver must be affirmed in all cases and it is so ordered This decision covers ten cases in this court and several pending suits in courts of Massachusetts The opinion was delivered by Justice Matthews

WASHINGTON NEWS ITEMS.

NAVAL OFFICERS NOT SMUGGLERS

WASHINGTON Nov 1—Solicitor General McCue has given to the secretary of the treasury a decision in the case of duties on goods brought in by naval officers recently In regard to the first class the solicitor holds that as the goods were not intended to be landed they are not dutiable if retained on shipboard for use He says that an importation is an arrival with intent to unload

In regard to the second class viz, articles brought by officers for use of other persons, the solicitor says they are dutiable and that there is no discretion in the customs officers or in the secretary of the treasury to abate any portion of the duties prescribed by law

As to the third class, viz articles brought by officers for their own use, the solicitor says their liability to duty depends upon whether they are wearing apparel in actual use and personal effects, not merchandise. If they are he says, they are free of duty The courts have given a liberal construction as regards wearing apparel and personal effects, and the solicitor says that under recent decisions all articles brought for personal use of officers on shipboard or in their quarters on shore would be free of duty.

In conclusion the solicitor says that he does not think that there were necessarily any penalties incurred by the naval officers so that whatever is collected from them should be by way of duties on such of the goods as the collector may decide to be dutiable

RESTORATION OF SILVER

The silver question is under discussion throughout the old world as never before. During the last ten years the consequences of the outlawry of silver by the chief commercial nations have been gathering force. They appear, as a writer in the *Quarterly Journal of Economics* expresses it, in "a check in the normal increment of money stock, in a divergence from the traditional par between silver and gold, in the derangement of the calculations of contracts and trade and investment between gold using and silver-using countries, and in a gradual subsidence of average prices, which still sees no halting place before it."

England has upheld the gold standard since 1816. Germany, after her last war with France, resulting in the exaction from France of an enormous sum of gold for indemnity, demonetized her silver, and as a result, Germany's stock of silver began to go upon the market. France met this soon after by discontinuing the purchase of silver bullion for coinage—a countermove to the attempt of Germany to sell her surplus stock of silver, and these movements profoundly affected the bullion price of silver in all the markets of the world. It is argued with great force that the United States had here an opportunity to make their power felt for restoration of silver, but instead of doing this, we adopted a policy which has directly and powerfully supported the outlawry of silver decreed by the European nations. That is, we passed our silver dollar act and thereby made a market for a portion of their surplus silver, "our purchase of bullion and coinage here was thus the direct ally of melters of thalers in Germany," and, "in fact, we kept up the price, as if to help on the cause of demonetization." Had we taken the heroic remedy a crisis would have been precipitated long ere this, which would have restored silver and gold to their old normal relations. We, too, could have added weight to the demonstration that "human law in one continent can shrivel up valuations in another," we could have aided in producing such a fall of silver as would have shaken the foundations of all European investments, would have produced an increase in the silver figures of India's gold debt and a novel dislocation of business between Europe on one side and Asia and South America on the other." From such a situation the world would have righted itself quickly by removing the outlawry from silver. But we took the other course, we supposed that we could uphold silver against the world, whereas in fact we have simply made a market for silver from other countries—not a market for silver, indeed, but market enough to keep the value from utter collapse, with the effect of letting it go down slowly and diminishing prices measured by the constantly shortening standard of gold. Meantime increase of industry among the two hundred million people of India has resulted in absorption of vastly augmented amounts of silver there. "Under the unerring gravitation of self interest, rupee-priced goods are lowering the gold price of gold-priced goods and so the gold valuations of Europe are breaking to pieces under the competition of the silver valuations of the East, and chiefly, if not wholly, because of the accidental 'corner on gold,' which has lowered the figure of the gold equivalent of rupee prices so as to undermine the old-time valuations of Europe."

This is an outline of an article in the *Quarterly Journal of Economics*, a new periodical published for Harvard university. The argument seems quite conclusive. But Mr Bland, of Missouri, the same whose name is identified with the silver dollar act, publishes in the *Forum* for November an article in which he argues that the United States, by adopting the policy of unlimited coinage, may restore silver to its old valuation. This, however, could be done only by coinage of an amount large enough to take up the surplus of the whole world, and it would seem to be certain that in a short time this would make the United States a silver country, with no gold, as India is now, and that the consequences of the outlawry of silver by Europe would be immensely aggravated and increased. But if we should stop coining silver altogether, would not the stress of prices resulting from exclusive use of gold as the measure of values soon force the nations of Europe to terms? Already the tendency is in that direction. Our legislation ought to be shaped so as to add weight and stress to that tendency and thereby hasten the necessary and inevitable readjustment.

For even the English are beginning to see that something is wrong in the relations between silver and gold, and that prices are profoundly affected thereby, and in consequence a commission has been constituted and is now at work, charged with the duty of inquiring whether recent changes of values are due to the depreciation of silver, to the appreciation of gold, or to both causes, and also what effects these changes have produced upon the industry and trade of the United Kingdom. It is a significant fact that the decline in silver bullion value for years has been about the measure of shrinkage in the values of all other commodities—a fact that goes far to show that it is gold which is constantly rising in value. The *Edinburgh Review* recently said: "So far as information can be obtained upon this subject, it certainly supports the conclusion reported by the American commission of 1876, that while there has been no fall in the value of silver in any country, the value or purchasing power of gold has risen in all countries." And the London *Times* has recently published many articles which contain substantially the same admission.

No one doubts that restoration of silver can be brought about through agreement of the leading commercial nations, but it is not probable it can be brought about in any other way, and it would seem to be quite certain that the present policy of the United States is postponing instead of hastening that event.

CHARACTERISTIC DISHONESTY

In printing a list of the tax payers of Washington county, with a statement of the assessment of each, the Hillsboro *Independent* says:

This does not clearly show the value of property in the county, since a reduction of 25 per cent was made on moneys, notes and accounts, etc. The only excuse offered for such reduction is that lands in the county were assessed too low, and that the boards of equalization have no power to raise assessments but may lower the same, hence moneys were reduced to meet "a just equalization."

This practice, the *Independent* adds very truly, is unjust in the extreme, opening as it does the way to unpunishable fraud and relieving from taxation a large amount of property. But the *Independent* is wrong in assuming that "this system of evasion and reduction was first foisted upon the lands of Oregon by Multnomah county." The board of equalization for Multnomah county has not at any time made a reduction in favor of money, notes and accounts. These classes of property have been taxed without reduction or relief as reported by the assessor, notwithstanding the fact that here as elsewhere the assessment of land (including city lots and mortgages, which are assumed as land) has been scandalously under the actual value. The effect has been to tax property in the form of money, notes, etc, at above the rate of property in the forms of real estate, mortgages, etc.

After setting up its man of straw as above, the *Independent* goes on to beat him as follows:

Such reduction on moneys, notes, accounts, mortgages, shares of stock, etc, enables Multnomah county to exempt millions of dollars from [illegible] and its direct equivalents from taxation. There is more money and less land in Multnomah than in any other county in the state. Yes, to speak truthfully, Portland has more money than all the other counties combined. This makes it an easy matter for the assessor to appraise the half dozen leaves of land far below their value, then comes the board of equalization and wipes out of existence the great piles of moneys and securities lying in vaults to meet the farcical "under valuation of lands." In New York this system of reduction in favor of that city has worked such injury in the agricultural districts that the state board of equalization added $99,000,000 to the county assessment. We doubt not but Portland in her puny way is trying to rival New York City in evading honest taxation.

All this illustrates the characteristic dishonesty of a certain type of journalism in this state. Here we see a gross misstatement, (for be it remembered, there is no reduction on money, notes, etc., in Multnomah county, nor has there ever been,) followed by illustration and argument in the same gross spirit designed to deceive those who read it and to create prejudice against Portland.

At Portland, and elsewhere in Oregon, there are dishonest men who conceal their intangible property from the assessors. But Portland is not working any system of evasion or reduction. Portland can not help it if the laws of the state are faulty in a way which permits property to escape taxation. Honest men in Portland as elsewhere suffer under the present system, and will welcome any change which will bring about the "equal and uniform" taxation prescribed in the constitution.

Robert Bruce, a moulder of Tacoma asks THE OREGONIAN to make a public report of grievances suffered by him during a recent term of service with the Oregon Pacific railroad company. He was engaged, he says, in the shops at Yaquina City and after four months and ten days work was "laid off," in other words discharged. At the termination of his service on the 10th of October, two sums, $93 50 wages for September and $18 26 wages for October, were due him. He applied at the office in Corvallis for his due, but was told that he must wait for "pay day," and nobody could tell him when "pay day" would come. He tried vainly to see the officers of the company, but was always told, after sending in his name, that they were "out." He spent thirteen days in vain waiting, and then sold his claim to a bank, supposed to belong to the company, losing besides thirteen days time and cost of subsistence, $7 as a "shave." Himself and others, he declares, while working for the company have suffered under a tax of $1 per month for hospital dues, though the hospital is away from any regular line of travel, and practically inaccessible for a sick man. While working at Yaquina he needed the service of a doctor and sent for the surgeon of the company, whom he helped to support, but got no attention.

The oleomargarine act went into effect yesterday. The stupid or hypocritical argument for its passage was that it was not intended to tax one industry for the benefit of another, but that it was passed within the power and duty of congress to protect the people who want to eat genuine butter against artificial butter. But how about that vast class of people who are quite willing and anxious to purchase and use a cheap and perfectly wholesome article of animal fat rather than genuine butter? Should they pay a tax for protection they do not want to protect butter eaters who neither need nor ask protection?

An agent of grape growers in the vicinity of Jacksonville is in the city trying to arrange for supplying this market. The chief trouble is in the matter of transportation. If sent in the ordinary baggage or express cars, grape boxes are handled like trunks and the fruit suffers in consequence. It seems oftentimes to be the desire of railway employes to do as much damage as possible in handling baggage and light freights.

Members of the legislature, some of whom, we are told, are studying the general subject of assessment and taxation, should take notice that the provisions in the present law made in the spirit of liberality to relieve small and comparatively poor taxpayers, become in practice loopholes through which rich rogues escape.

The Chicago *Tribune* makes the earnest inquiry whether, when Henry George is elected mayor and has abolished poverty, he will have the hardihood to throw a deserving man totally out of employment by abolishing the office of overseer of the poor?

An enthusiastic republican paper at Spokane Falls says that Washington territory is republican by 10,000 majority, but that Bradshaw ought to increase it to 15,000. But it's so easy to overdo the prognostication business!

Albert Mallot, hanged in British Columbia yesterday, begged the privilege of going on the scaffold in his stockings, not wishing to "die with his boots on."

Calamity seems epidemic in the south. Twenty-one hundred barrels of good whisky was burned in Kentucky yesterday.

A ROYAL SCANDAL.

The Prince of Wales Said to have Carried on an Intrigue with Lady Campbell.

NEW YORK, Nov 1.—The *Sun's* London correspondent is able to confirm what has hitherto been whispered in society concerning the connection of the Prince of Wales with a scandal attached to the marital relations of Lord and Lady Colin Campbell. Lord Colin had long suspected the prince of carrying on an intrigue with his wife and finally threatened to include him among the co-respondents.

Last year, while in search of evidence against Lady Campbell and her alleged paramours, Lord Colin found in her ladyship's desk a package of letters which had been addressed to her by the Prince of Wales. These letters were sufficiently cordial in tone and betrayed such ample solicitude for the lady's happiness as to justify the suspicion of her husband that the discreetly phrased notes really meant more than they expressed.

Lord Colin Campbell told his father the duke of Argyle and the latter made haste to lay the matter before the queen, between whom and the duke there was a long consultation resulting in the summoning of the prince into the royal presence. His royal highness admitted without hesitation that he had written the letters in question, but protested his innocence of any motive in writing them other than a feeling of friendly interest in the brilliant young American lady whom everybody pitied because of her husband's neglect and, rumor said, worse.

Finally Lord Colin Campbell placed the case entirely in his father's hands and the duke presumably in obedience to royal commands soon obtained the letters and forwarded them to the queen. It is understood the letters have since been destroyed and the only tangible evidence of the prince's interest in the beautiful respondent thus passed out of sight.

POLYNESIA

A MOUNTAIN THROWN UP.

SAN FRANCISCO, Nov 1.—A letter published in this evening's *Bulletin*, under date of Apia, October 11th, says: Authentic news has reached Samoa that on the morning of September 10th over 100 heavy earthquakes occurred on the island of Ninafou, one of the Tonga group, and that from the bottom of a lake which had a depth of 2100 feet a mountain has arisen to a hight of 300 feet above its surface; also that this mountain has burst into flames and thrown out hot stones and sand in such quantities as to destroy two thirds of the cocoanut trees on the island. In Samoa we are having light shocks of earthquakes so frequently now that they are no longer noticed by residents.

HUNGARY

FINANCES IN A CRITICAL STATE.

PESTH, Nov 1.—Semi official papers admit that the finances of Hungary are in a critical state. The opposition papers bluntly talk of bankruptcy and estimate a deficit in next year's budget of sixty million florins, although the government estimates a shortage of only twenty two million florins. In the budget submitted Saturday it is calculated that the minister of finance will be obliged to contract a loan of thirty six million florins. It is also rumored that the minister will resign his office. The budget has created a bad impression at Vienna.

CANADA.

OUTWITTED BY AMERICAN FISHERMEN.

NEW YORK, Nov 1.—A Halifax dispatch says some of the Canadian cruisers will go out of commission in a few days. Capt. Scott declares that American fishermen are "the most infernal thieves" and have given the captains of the cruisers lives of dogs by their tricks and dodges. The whole British navy would not be able to keep them absolutely off the Canadian coast.

EUROPEAN POLITICS.

Bulgaria's Fate Still Trembling in the Balance.

ENGLAND MAKES A PROPOSAL

Italy Concurs, Russia and France Oppose, and Germany and Austria Remain Neutral—The Egyptian Question

NEW YORK, Nov 1.—Thomas Power O'Connor cables from London to the *Star*: The Bulgarian question has taken a new and more threatening turn. The determined action of the Bulgarian government, it has been discovered, is based on authoritative intelligence that the czar regards Russian occupation of Bulgaria as inevitable. Preparatory measures for the campaign are being pushed forward with as much rapidity as is consistent with the secrecy desired by the czar. Alarm prevails in Vienna at the approach of active operations in the Balkan states. There is a strong feeling of indignation throughout Austria at the incapacity of the cabinet in allowing the empire to be isolated and without a single great power for an ally on the threshold of operations by Russia that if successfully carried out must annihilate Austrian prestige among the Christian states freed from Turkish control and placed under Austria's protection. In accordance with Herr Tisza's recent declaration on the foreign policy of the government the resignation of the Hungarian ministry and a deadlock between the two nations would follow Russian occupation of Bulgaria without action on the part of Austro-Hungary.

THE CZAR'S ULTIMATUM.

Equally sinister is Gen. Kaulbars' last declaration to the Bulgarian government that unless satisfactory guarantees are given for the security of Russian subjects in Bulgaria he leaves the country in three days. This is the ultimatum of the czar and there is every reason to believe that these are the last words the Russian agent will address to the recognized authorities. They will have to yield or defend their country from invasion.

The Bulgarian government is exhausting every effort to stave off the final stage of the dispute as long as possible. The country is not in a favorable condition to oppose Russian occupation. Elements that pronounced at first for Russia are suspected still of being completely under Russian influence. Near the quarters of all the suspected troops are Russian officers ready to take command at the first signal for rising. The whole country is honeycombed with Russian agents. Officers of the government themselves while putting on a bold front secretly anticipate a rising in the interest of Russia on the northern and eastern borders.

At the clubs experienced diplomats without exception take the view that Gen. Kaulbars' pronunciamento is a mere form introductory to Russia's occupation of Bulgaria in force.

CONFERENCE DEMANDED.

LONDON, Nov 1.—The cabinet at the first council since recess decided to instruct Sir Wm. White, British ambassador at Constantinople to insist on an immediate conference at Constantinople to reconsider the Bulgarian question and to demand suspension of Russian intervention diplomatic and active pending the decision of such conference. The porte is renewing its intercourse with England and is in favor of the proposed conference. Italy concurs, while Russia and France oppose the project. Germany and Austria remain neutral.

THE CABINET COUNCIL.

LONDON, Nov 1.—The cabinet council to-day discussed little except the Bulgarian and Egyptian questions. It is believed that the government will shortly send a circular to the powers explaining the financial position of Egypt. If Russia refuses to recognize the sobranje's candidate for the Bulgarian throne England will probably propose a conference to consider the whole question. The ministers are not inclined to call parliament before the middle of January. They will come to a final decision on this question on Saturday.

NOTES FROM SOFIA.

SOFIA, Nov 1.—At a meeting of the sobranje divzikoff was elected presiding officer. English and Italian agents attended the meeting.

Gen. Kaulbars has refused to accept the reply of the regency to his ultimatum and will leave Sofia. He threatens to bombard the barracks and government buildings at Varna if any opposition is offered to the debarkation of Russians at that place.

ENGLAND ASSERTS HERSELF IN CAIRO.

CAIRO, Nov 1.—It is officially announced that the English government is determined to maintain public safety in Egypt and not to leave the country to disorder and possibly to a fresh and disastrous revolution.

ANOTHER CANDIDATE.

LONDON, Nov 1.—Prince Conza, half brother of King Milan, has become a candidate for the Bulgarian throne. He is a relative of M. Degiers, Russian foreign minister.

ENGLAND

THE COMING LIBERAL CONFERENCE.

LONDON, Nov 1.—John Morley accompanied by Sir William Vernon Harcourt visited Hawarden to-day with the special object of inducing Mr Gladstone to assent to radical extension of the Leeds programme. There is small reason to expect that Gladstone will accede to making either question of reform (the house of lords or the church question) a plank in the platform. The Leeds meeting, as arranged, will be opened by Kitson chairman, who will introduce a motion expressing unabated confidence in Gladstone. Mr Morley will move that the conference reaffirm its belief in the home rule project, and renew its declarations upon the questions of land, local government and free education.

The absence of a developed policy discontents the radicals. The *Pall Mall Gazette* declares that the liberal party has become merely an association of men saying "ditto" to Gladstone and that the decadence of Gladstone is watched with dismay by his followers, some of whom look forward to the tories remaining in power for the next ten years.

A section of the delegates intend to urge the conference to consider a proposal to reconcile the unionists by affirming that every act or order of the Irish parliament interfering with the powers of the imperial parliament or contrary to the existing imperial acts will be held void and inoperative.

AN APPEAL FOR UNEMPLOYED LABORERS.

LONDON, Nov 1.—The bishops of London, Rochester and Bedford, Cardinal Manning, Rev Mr Spurgeon and Rev Mr Reaney have issued a joint letter urging that public works be started wherever possible to provide work for unemployed laborers at wages somewhat below ordinary pay.

The socialists have decided to hold a procession on Lord Mayor's day, Police Commissioner Warren not having replied to their letter.

HENRY GEORGE MEETING.

LONDON, Nov 1.—A Henry George meeting was held this evening in St. Andrew's hall this city. The hall was crowded. Mr Middleton of Hull who claimed to represent half a million workingmen presided. Resolutions favoring Mr George were adopted with enthusiasm. Messrs. Swartwout of the Columbia university and Sims Malnville of New York addressed the meeting.

A CHOLERA ALARM.

LONDON, Nov 1.—A death from what was undoubtedly Asiatic cholera has occurred in [illegible]. Some anxiety is felt here in consequence, although the sanitary condition of the city is excellent. Dr Koch of Berlin declares that a case of cholera which has been discovered near Mayence is of the Asiatic type.

HICKS-BEACH'S REPORT.

SALEM NOTES

SALEM, Nov 1.

Hon Robert A. Miller of Jacksonville is in the city on a business trip.

A surprise party will be given this evening at the residence of Mr and Mrs B. F. Southwicks.

F. A. Pickerall, the well known photographer, started this morning for his old home at Indianapolis, Indiana.

Miss Ida Van Cleave of this county and J. W. Taylor of Clackamas county were married in this city on Saturday last.

Clabe Mastersen died very suddenly while en route from Prineville to Salem over the Santiam road. His companions were compelled to bury him at the Mountain house, he having dropped dead at Cash creek the day previous. He was a resident of this county and was well thought of by those who knew him best.

Mrs. M. E. Coulter, who died in this city on Friday last, was taken to Oregon City for burial in the family burial ground, a large concourse of relatives and friends following the remains from the church to the cemetery. Rev. J. W. Sellwood of East Portland officiated at the church and grave, the services being unusually impressive.

Dr John W. Givens, who since the removal to this city of the Oregon asylum for insane has filled the responsible position of first assistant physician, has resigned that office and accepted the superintendency of the Idaho insane asylum located at Blackfoot, I. T. Superintendent Joseph has nominated and the board of trustees has confirmed the appointment of Dr. W. T. Williamson of Weston, to fill the vacancy. Dr. Williamson is a graduate of the Medical university of the state of California, and thoroughly qualified in every way to discharge the duties of the office. He is a democrat in politics and a prominent member of the I. O. O. F., of which he is a past grand representative. He will move his family to this city and assume his official duties on the 6th inst.

Joseph Russell of Douglas county, who in 1884 was convicted of the crime of manslaughter, has, upon the recommendation of the state board of pardons, been pardoned by Gov. Moody. The crime was committed at Riddle, where young Russell, then only 16 years of age, became involved in an altercation with another lad named Jesse Quine, who Russell claimed had made some derogatory remarks about his (Russell's) sister. During the scuffle which ensued young Quine received a penknife wound in the region of the heart, from the effects of which he shortly afterwards died. Executive clemency was urged on the grounds of the extreme youth of the prisoner, his previous good character, good behavior while in prison, and from the fact that the testimony showed that the act was one of sudden passion and not one of premeditation. He had served over two years of the five years' sentence imposed by the court.

The reception and banquet given on Saturday evening last by Capital Engine company No. 1 of this city, proved a very pleasant affair throughout. The house was thrown open to the public at 5:30 P. M. and a number of our citizens in many instances accompanied by ladies visited the rooms and inspected the new steamer, which glistened under the gaslight and presented a beautiful appearance. The meeting room above was for the time being converted into a banquet hall. The tables were tastily arranged and were well laden with the good things of life bountifully supplied. None but members of the company and especially invited guests were present, among the latter being the state, county and city officers, the presidents and foremen of sister fire companies and the members of the city council. Mayor Skinner presided, and after discussing the quality of the viands until overloaded stomachs called loudly for a cessation of hostilities, impromptu and congratulatory speeches were made by Mayor Skinner, President A. B. Crossman, Hon John G. Wright, Hon D. B. Moores, Hon. P. H. D'Arcy, Hon R. A. Miller, W. F. Dugan, John W. Minto, F. M. Croisan, John H. Albert, F. N. Edes and others.

INCORPORATIONS.

The Astoria & Tillamook Railroad company has filed articles of incorporation in the office of the secretary of state with J. C. Trullinger, J. O. Hanthorn and L. Wingate of Astoria and George B. Withington and J. W. McL. Harvey of Portland as incorporators. Duration perpetual and its object and business being to construct, equip and maintain and operate a railroad with all the necessary rolling stock, depots, stations and appurtenances necessary for constructing and operating a railroad from Astoria in Clatsop county to Kilchis in Tillamook county, Oregon, and from some point on the line of said road to Fort Stevens, Oregon; to construct telegraph and telephone lines or both along said route; to hold real estate and personal property; to erect bridges, ferryboats, etc.; to manufacture lumber, carry rock, mine coal and sell the same; to issue bonds, borrow money and do all things necessary to carry out the objects of the corporation. Principal office at Astoria. Capital stock $100,000. Also the Coos county Transportation company for the purpose of navigating and transporting freight and passengers on the waters of Coos bay and the Coquille river and their tributaries. Principal office at Marshfield. Capital stock $10,000. Incorporators: J. F. Dunham, R. J. Dunham, H. W. Dunham and A. J. Crawford.

COAL TEST.

Maj. Jones of the United States engineer's office has lately made tests of the coal from South Prairie and from the vein [illegible] being opened by Beaty Mason & Co. [illegible] comparing the coal [illegible] with Scotch splint and the result is gratifying. Following is a synopsis of the tabulated statement formulated by Maj. Jones.

	Scotch splint	South Prairie	Nehalem
Duration of trial, hours	[illegible]	11	[illegible]
Quantity of coal burned	30	208	[illegible]
Percentage of ash	11	10	[illegible]
Combustible in coal	[illegible]	[illegible]	[illegible]
Quantity of water evaporated gallons	[illegible]	[illegible]	[illegible]
Quantity of water evaporated per lb of coal	[illegible]	[illegible]	[illegible]

The result shows the commercial value of Nehalem coal to be [illegible] per cent of South Prairie or 80 per cent of Scotch splint.

OFF FOR CALIFORNIA.

In order to keep the stock complete, Roberts the veteran will make a hurried trip to San Francisco to lay in a supply of goods to sort up that which is or shortly will be out of stock. He has sufficient, however, for all his customers even at present, though it is just as well to keep goods up to the standard.

DR. MINTIE.

The successful specialist, of San Francisco, on nervous, chronic or private diseases, will be in Portland about November 5th for a short stay. The doctor is one of the few physicians who can be relied upon for an honest opinion and scientific treatment of these troubles, as his past record shows.

SALEM NOTES.

SALEM, Nov. 1.

[illegible] Robert A. Miller of Jacksonville, is in the city on a business trip.

[illegible] party will be given this evening at the [illegible] of Mr. and Mrs. B. F. Southwicks.

[illegible], the well-known photographer, [illegible] this morning for his old home at Indian[illegible] Indiana.

[illegible] Van Cleave, of this county and J. W. [illegible] of Clackamas county were married in this [illegible] Saturday last.

[illegible] Masterson died very suddenly while en route from Prineville to Salem over the Lebanon [illegible]. His companions were compelled to bury [illegible] at the Mountain house, he having dropped [illegible] that creek the day previous. He was a [illegible] of this county and was well thought of by [illegible] who knew him best.

[illegible] M. E. Coulter, who died in this city on Friday last, was taken to Oregon City for burial in the family burial ground, a large concourse of [illegible] and friends following the remains from [illegible] church to the cemetery. Rev. J. W. Sellwood [illegible] Portland officiated at the church and [illegible] the services being unusually impressive.

Dr. John W. Givens, who since the removal to [illegible] of the Oregon asylum for insane has filled [illegible] responsible position of first assistant physician, has resigned that office and accepted the superintendency of the Idaho insane asylum located at Blackfoot, I. T. Superintendent Joseph [illegible] has been notified and the board of trustees has confirmed the appointment of Dr. W. T. Williamson [illegible] to fill the vacancy. Dr. Williamson is a graduate of the Medical university of the state of Oregon, and thoroughly qualified in every way to discharge the duties of the office. He is a [illegible] in politics, and a prominent member of the I. O. O. F., of which he is a past grand representative. He will move his family to this city and assume his official duties on the 16th inst.

[illegible] Russell, of Douglas county, who in 1884 was convicted of the crime of manslaughter, has, upon the recommendation of the state board of [illegible], been pardoned by Gov. Moody. The crime was committed at Riddle, where young Russell, at the time only 16 years of age, became involved in a quarrel with another lad named Jesse [illegible], who, Russell claimed, had made some derogatory remarks about his (Russell's) sister. During the scuffle which ensued young Quine received a knife wound in the region of the heart, from the effects of which he shortly afterwards died. Executive clemency was urged on the grounds of the extreme youth of the prisoner, his previous good character, good behavior while in prison, and [illegible] the fact that the testimony showed that the crime was one of sudden passion and not one of premeditation. He had served over two years of the [illegible] years' sentence imposed by the court.

The reception and banquet given on Saturday evening last by Capital Engine company No. 1 of [illegible], proved a very pleasant affair throughout. The house was thrown open to the public at 5:30 P. M., and a number of our citizens, in many instances accompanied by ladies, visited the rooms and inspected the new steamer, which glistened under the gaslight and presented a beautiful appearance. The meeting room above was for the time being converted into a banquet hall. The tables were tastily arranged and were well laden with the good things of life, bountifully supplied. Besides the members of the company and especially invited guests were present, among the latter being the state, county and city officers, the presidents and members of sister fire companies and the members of the city council. Mayor Skinner presided, and after appeasing the quality of the viands and overloaded stomachs called loudly for a cessation of hostilities, impromptu and congratulatory speeches were made by Mayor Skinner, President A. R. Crossman, Hon. John G. Wright, Hon. [illegible] Moores, Hon. P. H. D'Arcy, Hon. R. A. Miller, [illegible] W. F. Dugan, John W. Minto, E. M. Croisan, [illegible] Albert, E. N. Edes and others.

COAL TEST.

Maj. Jones, of the United States engineers, has lately made tests of the coal from South Prairie and from the vein at Nehalem, being opened by [illegible] Mason & Co. The test consisted in [illegible] the evaporating efficiency of these coals with Scotch split, and the result is gratifying. Following is a synopsis of the tabulated statement furnished by Maj. Jones:

	Scotch split	South Prairie	Nehalem
Duration of trial, hours	12	13	[illegible]
Quantity of coal burned, lbs	307	208	1[illegible]3
Percentage of ash	11	10	[illegible]
Combustible in coal	88.[illegible]	83.[illegible]	[illegible]
Quantity of water evaporated, pounds	241	229	1[illegible]0
Quantity of water evaporated per lb of coal	6.5	5.8	5.1

The result shows the commercial value of Nehalem coal to be 81 per cent of South Prairie or 80 [illegible] of Scotch split.

OFF FOR CALIFORNIA.

In order to keep the stock complete, Roberts, [illegible] will make a hurried trip to San Francisco to lay in a supply of goods to sort up that [illegible] shortly will be out of stock. He has [illegible], however, for all his customers even at [illegible], though it is just as well to keep goods up to the standard.

LOCAL AND GENERAL.

A VISITING JOURNALIST.—Dr. Julian Thomas, known to Australians and the literary world as "The Vagabond," who is now in Portland, claims to be among the most traveled of special correspondents. On behalf of the Melbourne *Argus* he has written letters from China and Japan, as well as from every part of Australasia. He knows Fiji and British Columbia. The enterprising journal to which he is attached three years ago sent "The Vagabond" to New Caledonia, New Hebrides and New Guinea, the round trip occupying ten months and costing $10,000. The result of the *Argus* New Guinea expedition was a considerable addition to the scant knowledge of the Dark island. Dr. Julian Thomas is this time making a tour around the world. He was despatched to write up the opening of the Colonial exhibition in London, and was five months in England and on the continent. He has written several books, the last being in the press with Cassell & Co. of London and New York, entitled "Cannibals and Convicts." Our visitor threatens the world with a book on Canada, to include his experiences in Oregon.

A GLORIOUS DAY.—Yesterday morning at the witching hour when reporters wend their ways to their luxurious couches the sky was starless and hung like a pall over the sleeping world, or, at least, over this section of it. There was also an unwonted coolness in the atmosphere, and the policeman on his lonely beat remarked: "It looks and feels like snow." It did, and yesterday when the reporters came forth into the glorious sunshine to again renew their labors the peaks of the distant Cascade range glistened white and cold in their first coating of snow of the season. The congealed stuff tainted the atmosphere even here in Portland with a suspicion of its frigidity, which the November sun did its best to dispel. Here in Portland Jack Frost has not put in an appearance yet, and flowers are blooming in all the gardens. Tomatoes are still ripening in the sunshine, and geraniums and other semi-tropical plants are flourishing. Yesterday was one of those perfect autumn days too fine to continue for any length of time, a weather breeder, as it is called, and we shall probably have a storm before many days have passed.

PLEADS THE BABY ACT.—The case of the London and San Francisco bank vs. Burns et al. came up in the U. S. circuit court yesterday on petition of W. F. Burns to be allowed to plead infancy and so escape his liabilities. Burns Bros., it will be remembered, failed in the crockery business a short time since, having first confessed judgment in favor of a brother of the partners and the wife of one of them for a large sum. The London and San Francisco bank sued out an attachment against the firm and sought to have the confessed judgment set aside to give priority to their attachment. W. F. Burns, who is between 20 and 21 years of age, has his brother and co-defendant appointed his guardian and petitions to be allowed to plead infancy and a discharge of his liabilities. Judge Deady refused to allow this. It is understood that Burns, probably to strengthen his claims to be considered an infant, had provided himself some time since with a buggy and nurse of a size and age suitable to an infant of such stalwart proportions.

THE OSWEGO IRON WORKS SUIT.—The case of S. G. Reed vs. Elijah Smith and that of S. G. Reed vs. Elijah Smith, C. J. Smith and L. B. Seeley were called for trial jointly in state circuit court department No. 1 yesterday before a jury. The action is to oust Elijah Smith, L. B. Seeley and C. J. Smith as officers and directors of the Oregon Iron & Steel company. July 1 a meeting of the stockholders was held, when S. G. Reed, W. S. Ladd, W. M. Ladd, George H. Williams and Martin Winch were elected directors and Wm. M. Ladd declined to qualify. At another meeting, held later and denominated in the complaints as a pretended meeting, Elijah Smith, C. J. Smith, L. B. Seeley, S. G. Reed and W. S. Ladd were elected directors, Elijah Smith president, L. B. Seeley secretary and W. S. Ladd vice-president. Reed alleges that Elijah Smith, L. B. Seeley and C. J. Smith are non-residents and therefore not eligible to hold office. The trial of the case will be continued with to-day.

LECTURE.—Multnomah camp, No. 2, Indian War Veterans, have secured Masonic hall for Wednesday evening of this week for a lecture from Hon. Elwood Evans of Tacoma, W. T., who is recognized as a gifted orator. The subject announced is "The Indian War of 185[illegible]-5[illegible]—the Authorities and People of Oregon and Washington Vindicated." The committee having the matter in hand have made preparations for a large attendance and have assurances of a full house to greet the orator on this occasion. It is expected that many ladies will be present. The evening's exercises will open with a solo by Mrs. C. C. Gridley of Vancouver, a quartette under direction of Prof. Dobbins to be followed by the lecture of Mr. Evans. Col. J. K. Kelly will preside, and many honored citizens of Oregon and Washington have accepted invitations to occupy the platform. The exercises will commence at 7:30. Admittance free.

BETTER MAIL FACILITIES.—The change of time on the Oregon & California whereby the through train arrives here at 3:20 P. M. instead of 4:10 allows the distribution of mail to business houses in time for answer the same evening without encroaching so near to the hour of closing. A like improvement is occasioned by the change on the O. R. & N. The Atlantic express arrives fifteen minutes sooner and the transfer boat leaves fifteen minutes later, giving half an hour's more time for answering Eastern letters. However, Postmaster Roby is going to undertake the experiment of delivering the east-bound mail to the cars in East Portland, instead of putting them aboard the transfer boat. If the arrangement works, the mails will close at the postoffice an hour later than under the summer schedule.

THE NARROW GAUGE.—Quite a number of residents of both sides of the Willamette valley were disappointed yesterday because the line from Dundee junction to Elk rock was not opened for traffic. The cause of the delay was the non-arrival of rails to finish the track in time. However, the rails arrived Saturday on the Columbia and are now on the steamship wharf. They will be sent to the front without delay. The first three or four miles south of Dundee were laid temporarily with light iron, to facilitate construction. Last week the light iron was taken up and will be replaced with the rails which have just arrived. The probability is that cars will be running from Dundee to Elk rock by the middle of this month.

BUTCHERS INDICTED.—Charles Kriegel, L. Zimmerman and several other butchers have been indicted by the grand jury under a statute of the criminal code. The indictment charges that they did wilfully and unlawfully cause to be killed divers large numbers of cattle, hogs and sheep near to the dwelling houses of divers persons then and there inhabiting the same houses and near to a certain public road and highway over and upon which large numbers of persons daily pass and repass, and did wrongfully cause and permit the skin, blood, bones and entrails of said cattle, sheep and hogs to be and remain near the said roadway and dwelling houses, whereby a nuisance was created, etc., etc.

SUING FOR HIS DAUGHTER'S WAGES.—Yesterday in Justice Tuttle's court the case of David Wart vs. H. H. Tinker to recover $10 was tried and taken under advisement. It appears that Mr. Tinker is Wart's son-in-law. Tinker keeps a hotel at North Beach and last summer Miss Wart, Mrs. Tinker's sister, went on a visit to North Beach, remaining fourteen weeks, during which time $2.50 a week was charged against her for board. Miss Wart claims that during the time she was at the beach she made herself useful to such an extent that her services were reasonably worth far more than the amount of the board received, and the $10 sued for besides.

MERELY FOR CONSULTATION.—Hon. Edmund Robertson of London, who has been in the city for two weeks, left yesterday for Washington, D. C. His visit to Portland was for the purpose of inspecting the narrow gauge lines as repaired and for consultation with the able and trusted representatives of the Oregonian Railway company, Mr. Hugh Roger and Messrs. Whalley, Bronaugh & Northup, on the company's business generally, and he returns well satisfied with the position of affairs.

CHANGES AT THE POSTOFFICE.—Page Stephens, who has been running as mail distribution clerk between The Dalles and Portland, has been appointed superintendent of letter carriers vice J. P. Burkhart, resigned. This puts Mr. Stephens back into a position which he has filled admirably before and for which he is well fitted. George Ham, formerly special delivery messenger, has been recommended by Postmaster Roby to take Mr. Stephens's place on the cars.

SAN GRAEL SOCIETY.—The lecture on "The Art of Pleasing" which was to have been delivered before the San Grael society last night by the Rev. A. L. Lindsley, D. D., has been unavoidably postponed until this evening at 8 o'clock, in the lecture room of the First Presbyterian church. A cordial invitation is extended to all friends of the society to be present. The subject should be of interest to all, and the reputation of Dr. Lindsley as a lecturer assures a treat. Admission free.

SLIGHT WAR AMONG DOCTORS.—Last night the State Homeopathic society held a meeting at the office of Dr. Geiger for the purpose of "trying" Dr. W. I. Miller, the popular young physician and surgeon whom the society is trying to run out on account of his mode of running his own practice and the alarming success with which he is meeting. A stop to the proceedings was made by an injunction from the state circuit court which Dr. Miller had secured.

IMPROVEMENT OF THE COWLITZ.—Capt. Kellogg, who has the government contract for improving that portion of the Cowlitz river which is navigable, returned to this city yesterday. He reports the water in the river very low and that he has removed a number of dangerous snags. In addition to this a wing dam has been constructed and several bars sluiced, improving the channel of the river greatly.

NEWSPAPER CHANGE.—The daily *Freie Presse*, a German evening daily which has been published here something more than a year, suspended publication yesterday. It will be published as a weekly by the present proprietors. It is rumored that Dr. John Folkman will begin publication of a German daily here in a short time.

THE STAGE.

NEW MARKET THEATER.—Certainly a more satisfied audience could not have been gathered in a house of amusement than that which witnessed "May Blossom" by the Georgie Woodthorpe company last evening. For a company making no pretentions to more than average merit it was as smooth and well balanced performance as one cares to see. Miss Woodthorpe sustained the role of the heroine in a very pleasing manner. Her scenes with Steve were admirably well managed, particularly in the third act, where, filled with horror and repulsion at her husband's perfidy, she drives him from her home and then falls fainting on the floor. Mr. J. W. McCon[illegible] simply surprised us with the earnestness and pathos which he threw into the difficult part of Steve Harland. He was natural and easy in all the trying situations of the role. Fid M. Page as Uncle Bartlett, the Parson, was amusing, while Scott Cooper's Blossom was hardly as unctuous as the part demands. Hennessy Leroyle's Owen was cleverly made up and acted, but there was rather too much of a Hibernian flavor about the rendition. Little Ella Whipple, as Little May, was very clever, and the remainder of the cast was acceptable. The piece was well mounted. To-night and to-morrow night will be the last performances of this pretty little drama, as the company goes to Eugene for Thursday night and on their return go immediately to the Sound.

DOOR PANELS.

Mr. A. Matteson, whose sand blast at the Mechanics' fair attracted such widespread and favorable attention, has just completed two very handsome glass door panels for Messrs. Butterfield Bros. The firm name appears on each panel in handsome clean cut letters, while a tall, graceful vase of flowers ornaments one corner and a scroll terminating in a cluster of flowers the other. These panels are 20x35 inches in size, the largest ever made in Portland. Mr. Matteson may be found at 103 Front street with F. E. Beach & Co.

NEW STEAMBOAT TO BE LAUNCHED

The new steamboat being built for the Oregon Development company by Lamont & Smith at their yard in this city is now ready for the water, and everything is in order for launching, which will take place at or near 11 o'clock this morning. The name of the boat has not yet been made known, but probably will be at the time of launching. Her dimensions are as follows: Length over all, 1[illegible]0 feet; length of keel, 130 feet; breadth of beam, [illegible] feet; depth of hold, 4½ feet; upper cabin [illegible] feet; lower house [illegible] feet. She will have [illegible] staterooms besides pantry, kitchen, etc. After she is launched she will be taken across the river to the wharf of the Willamette Iron works, where she will receive her machinery. Her engines will be 16 inch bore and 5 foot stroke. While the machinists are at work the carpenter work and painting will be going on so that there will be no delay. Her construction commenced on the 11th day of September and the contract is that she shall be completed and ready to turn over to the company on the 10th day of December, when she will take her place on the upper Willamette in connection with the steamer Three Sisters, built by the same firm last spring.

A man named Graham, who has been employed at the head works of the Bull Run Water company, was very badly hurt last week by falling rocks. His injuries consist of a badly mashed foot and a large wound on the scalp. He is stopping at Mrs. S. F. Keenan's boarding house and receiving surgical attendance.

Cure of Liver Complaint.

IOWA FALLS, HARDIN CO., IOWA, June 8, 1885.

I have been using Allcock's Porous Plasters for four years and think I could not get along without them. For a long time I was afflicted with a pain under my right shoulder blade, I also had considerable difficulty in breathing. I applied an Allcock's Porous Plaster on my back, and one on my chest. I kept changing them every four days, and at the end of three weeks was entirely cured.

HEADQUARTERS W. C. T. U.,
PORTLAND, Or., Nov. 1, [illegible]

Our regular Monday afternoon session of the W. C. T. U. was one of uncommon interest. Devotional exercises were conducted by Mrs. Cooper, the president, Mrs. Morton in the chair.

The net proceeds of the debating social, including a five dollar donation by Governor elect Pennoyer, was over $25.

Several distinguished visitors were present. Rev. Whitmore, from Astoria, gave a good account of the work at that point, where Dr. Kinney spends time and money for the good of the cause. Rev. Satchwell, from McMinnville, spoke encouraging words to us and said they were increasingly disposed to work in the cause at McMinnville, having lately held a mass meeting, which was addressed by Mrs. Reese in their beautiful opera house. Mrs. Baine, from Albany, said they were prosecuting the work with vigor and had a flourishing Band of Hope at that point. Mr. Clark, recently from Butte City, gave an interesting account of the work there.

Mrs. Bond, recently returned from Ilwaco, was present, looking improved in health and cheerful.

Several bills, including water rates, were ordered paid.

Altogether we had the best meeting we've had for some time, and we hope our sisters and others will continue to visit us. JANE E. WEEDEN.

THE RIGHT MAN IN THE RIGHT PLACE.

I have left the Baldwin and have taken my old place as chief meat and pastry cook at Freimann's, Oak street. HARRY SEAGER.

BLACK WOLF.

Or Black Leprosy is a disease which is considered incurable but it has yielded to the curative properties of SWIFT'S SPECIFIC—now known all over the world as S. S. S. Mrs Bailey of West Somerville, Mass near Boston, was attacked several years ago with this hideous black eruption and was treated by the best medical talent who could only say that the disease was a species of

LEPROSY

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her all wise Creator

Her husband hearing wonderful reports of the use of SWIFT'S SPECIFIC (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest but soon found that her system was being relieved of the poison as the sores assumed a red and healthy color as though the blood was becoming pure and active. Mrs. Bailey continued the S S S until last February every sore was healed she discarded chair and crutches and was for the first time in twelve years a well woman. Her husband, Mr E A Bailey is in business at 17½ Blackstone Street Boston and will take pleasure in giving the details of this wonderful cure. Send to us for Treatise on Blood and Skin Diseases mailed free.

TESTIMONIALS.

A CARD

For years I have been physically wretched from asthma, catarrh and bronchitis, from which my unremitting efforts, involving a large expenditure of money, failed to procure any relief until I placed myself under the care of Dr H J Smith, corner Second and Morrison Sts, who in a short time has so nearly cured me that I can attend to all my duties with perfect ease and comfort. HENRY BARBER, Foreman Hogue's Mill.

EAST PORTLAND, Oct 30, 1886

The following is from the Hon N Pierce, well known in Eastern Oregon

A CARD.

MILTON, Or , Sept. 25, 1885

A sense of duty to those who may be similarly afflicted prompts me to make the following statement My son Henry, aged 14 years, was almost entirely deaf since quite a child and having failed to obtain any help for him, I applied to Dr H J Smith, of San Francisco, who pronounced his case one of Catarrhal Deafness, and said he could cure his Catarrh and improve his hearing at least one-half He has only been under the doctor's treatment (at home) a short time, and I find his hearing completely restored and Catarrh nearly cured N PIERCE.

MILTON Or, Sept. 29, 1886—I take pleasure in stating that, after the lapse of one year I find my boy Henry's, condition better than stated in my testimonial of one year ago N PIERCE

To those suffering from Blood, Nervous or other Chronic Diseases we would say that it is not our custom to resort to a tedious effusion of trite matter, to excite your fears in order to deplete your purse, but will simply say that we have made a thorough study of this class of diseases, and can cure you in the speediest and most scientific manner possible

HOME TREATMENT.

Those who cannot attend our office may be given a course of treatment at home, under our direction If you cannot call, address us, enclosing stamp, and give a full description of your symptoms
